VOLUME V. WICHITA FALLS, TEXAS, TUESDAY, AUGUST 22, 1911 NUMBER 86

REGULATIONS FOR BICYCLE RIDERS

LICENSE REQUIRED AND WHEELS MUST BE PROVIDED WITH WHISTLE OR A BELL

NEW ORDINANCE ADOPTED

When Bicycle Rider Meets Pedestrian On Sidewalk He Must Dismount

Bicycle riders must secure a license at a cost of fifty cents provid the wheel with a number to correspond with the license number hereon a horn, whistle or bell in use a light at night. In addition it will be unlawful to ride a wheel when passing a pedestrian on a sidewalk the requirements being that the rider must alight and lead his machine by the pedestrian walking

The above are the provisions of an ordinance passed by the city council at a meeting held this morning and the police are instructed to enforce its provisions to the letter, the penalty in case of a violation being any sum not less than $5 or more than $100, at the discretion of the judge of the corporation court

The ordinance is the result of considerable complaint that has reached the members of the city council of late in which it is claimed that bycicle riders have little regard for the public especially in connection with the use of the sidewalks The question of prohibiting the use of sidewalks entirely for bycicle riding was discussed but it was thought that the provision requiring the rider to alight when passing or meeting people would be a sufficient protection if practiced while if the ordinance is disregarded someone will be 'pinched' and made to pay a fine for the offense

The ordinance will go into effect immediately upon its publication and bicycle owners can secure a license upon application to the city secretary.

GOOD TALENT FOR S. S. CONVENTION

The State Sunday School Committee has issued a letter containing the following relating especially to the conventions in Wichita Falls and Gainesville.

The convention at Gainesville, September 1 to 4, and Wichita Falls September 4 to 6, at Amarillo September 6 to 8, Lubbock September 9 to 11, San Angelo September 13 to 15, Dublin September 19 to 21, are all settled definitely, the local committees are making big preparations The dates and other places will be announced later

'The program at these places provides for a great school of methods to be conducted by trained experts upon every phase of the work In addition to noted state talent we are fortunate in securing workers of national reputation to assist also

'For the Gainesville and Wichita Falls conventions Miss Margaret Ellen Brown, the Elementary superintendent of Nebraska, who is sought after by more states than any other state worker, ranking next to Mrs Bryner in effective platform work, will bring the elementary workers a great blessing. Every teacher and worker among children from the cradle to thirteen years should be present either at Gainesville or Wichita Falls

Also for the Gainesville and Wichita Falls conventions we are fortunate in having Rev Henry A Dowling at present general secretary of Arkansas who is one of the most effective workers in the organized field of America Dr Dowling has had much to with promoting the Sunday School work of Ohio and Michigan He has brought things to pass in Arkansas The work over there is going forward with marvelous success He will bring us many helpful messages in these two conventions. Every pastor, superintendent and teacher will enjoy his work but we would urge all the county officers and workers in an organized capacity to hear him

Of course C W North the noted song leader, and the wonderful Alvin V Roper, the noted world's pianist will bring a great blessing

Mrs Mary Foster Bryner international elementary superintendent, who is the greatest woman sunday School worker in the world, having done platform work in conventions on every continent, will greatly inspire the workers in the conventions beginning at Amarillo, and running up to Houston convention on October 2 Mrs Bryner is not only leader of the elementary forces, but can speak on every phase of Sunday School work We are indeed fortunate in having this noted worker for such a long time as ordinarily the international workers can only attend each annual statewide convention.

Killed By Lightning

By Associated Press

Dalhart, Texas, Aug 22—Pete McWilliams was killed by lightning last night at Vaughan, New Mexico

EDITOR SHELDON IN GOOD LUCK

OWNS VALUABLE TRACT OF LAND IN THE HEART OF ELECTRA OIL FIELD

FOUR WELLS GOING DOWN

On His Land Two of the Rigs Already Started—Two Other Locations Made

Work was already in progress on two locations made for two of the rigs W J Sheldon editor of the Daily News admits that he has staked his paper in the Electra oil development in the oil field

Mr Sheldon and Mr J M Hoxie of the First State Bank of that place were in the city on business matters Mr Sheldon reports very satisfactory development in the oil field New rigs are going up all over the field Seven or eight rigs are now on the ground awaiting rig iron for their erection

On Mr Sheldon's own tract which is close to the Stringer and Allen leases W J McCallester has a rig under construction and Billie Myers is putting material on the ground for the Parmer Oil Company in which Henrietta people are interested The 99 Pumping Company have made a location on Mr Sheldon's tract and have machinery enroute and will start drilling as soon as they can get their rig up The Corsicana Petroleum Co has also made a location on this tract

Mr Sheldon's tract contains about 200 acres He has retained a plot of considerable size in its center and later may put down a well himself

Pine Bluff 79 Years Old

Pine Bluff, Ark, Aug 22—The seventy ninth anniversary of the birth of Pine Bluff was the occasion of a big celebration by the citizens today The town was laid out Aug 22, 1832 a family by the name of Pullen making the survey. The original town comprised forty-five blocks, but fourteen of them have been washed away by the encroaching river

High Winds Delay Flight.

By Associated Press

Syracuse, N Y Aug 22—Harry Atwood the aviator owing to high winds will not be able to start from Belle Isle until this afternoon He expects to reach Albany 153 miles before night

WOLTERS AND LOVE HAVE A FIST FIGHT

Austin Texas Aug 22—Col J F Wolters of Houston, chairman of the anti statewide prohibition organization of Texas, and Hon Thomas B Love of Dallas, ex Speaker of the House of Representatives were the principals in a fist fight which occurred here in the lobby of the Driskill Hotel yesterday afternoon about 6 45 o clock

It is admitted that Mr Wolters got decidedly the best of the engagement striking Mr Love several times before the men could be separated Mr Wolters did not sustain a scratch but Mr Love had a cut on the left side of his nose from which the blood came for some time

Mr Love said last night that it is probable the encounter was the result of the testimony he gave yesterday afternoon before the House investigating committee In that testimony he flatly contradicted statements which Mr Wolters had made under oath a day or two before regarding what was said at a conversation between the two in this city before the prohibition campaign opened Last night Mr Wolters would only say that Mr Love had slandered him and he had simply taken the first opportunity offered to resent it

Mr Love said that accompanied by Hon W F Hawkins and carrying a suit case he walked in through the front door of the Driskill Hotel late yesterday evening

As I entered he said Wolters assaulted me I didn't think he said a word before he struck me He hit me several times and I received a slight cut on the left side of the nose

I do not know whether I hit him or not I tried to however that act was merely formal because I knew I could not handle Wolters he is an athlete Mr Hawkins separated us

Yes I presume the assault is the result of the testimony which I gave before the House investigating committee yesterday afternoon regarding a conversation I had with Wolters before the prohibition campaign opened That testimony is the truth

I have only this to say said Mr Wolters when asked for a statement the campaign is over and I am tired of being slandered That's why I thrashed Love

Mr Love left last night at midnight for Dallas He said he came here on departmental business and only incidentally to appear before the House investigators

While Yacting With Fiance Col. Astor Rescues Five Men

New York, Aug 22—Another spot light was turned on Colonel John Jacob Astor and his fiancee, Miss Madeline Force today when the wireless on Colonel Astor's yacht the Noma told of the rescue of five men from the wrecked sloop Zingara. The Noma is now at Newport with the rescued men aboard

The rescue of the Zingara's crew occurred at midnight 12 miles off Horton's Point It was described in the following wireless message received by the Associated Press from the Noma

Captain Richard Roberts master of Colonel J J Astor's steam yacht Noma rescued the crew of five men from the sloop Zingara at 11 30 p m Strong wind from west northwest with very rough sea She (the Zingara) left Dutch Island Friday morning, headed toward New Haven She struck a heavy squall off Indian Neck in the afternoon, which nearly capsized her washing binnacles and everything overboard The five men worked at the pumps all the afternoon, but without avail, as her seams had opened badly

Captain of the Zingara said several vessels paid no attention to their signal for help Colonel John J Astor was on deck during the rescue and gave assistance when launching and taking in lifeboats.

'Mr Astor and Miss Force were on deck during the thrilling operation

This is the second rescue at sea Captain Richard Roberts has made within the last few years

FRAUDS IN RIO GRANDE COUNTIES

BROWNSVILLE MAN TELLS COMMITTEE THAT CONDITIONS IN THAT SECTION ARE DEPLORABLE.

ALEX POPE TESTIFIES

Prosecutor Thomas Admits That Anti Witness' Tesimony Was Far From Satisfactory

By Associated Press

Austin, Texas, Aug 22—The only witness examined before the House investigators today was William D Hawkins of Brownsville, Representative Otto Wahrmund, of San Antonio was sent for but replied He would come before the committee when he took a notion

According to Hawkins fraud is alleged to have been practiced in Rio Grande Valley counties where the sentiment was overwhelmingly anti He characterized the conditions as deplorable He said a systematic fraudulent ballot had been in operation in his county for a number of years and advocated a rigid investigation, inviting the committee to visit Brownsville

After the committee adjourned Wahrmund came into the committee room

Alex Pope of Dallas reappeared before the Senate investigators this morning and announced he had reconsidered and was willing to answer all questions He was on the stand all morning but Prosecutor Thomas admitted at noon That examination had been far from satisfactory

Pope told in detail how the antis were organized during the recent campaign and said his duties with the organization were to travel over the State and perfect county organizations in the interest of the fight against prohibition For this he received compensation but declined to say how much He said it was his understanding that at least one member of the present House was on the pay rolls of the antis during the campaign

The Senate this morning repassed the contingent expense bill with an amendment providing an appropriation of $20 000 instead of $30 000 and an emergency clause The measure will go to the Clerk of the House for indorsement

TRIBUTE OF RESPECT TO JOHN W. GATES

Texas Company Announces a General Suspension of Business Wednesday Morning

By Associated Press

Houston Texas Aug 22—The Texas Company announces a general suspension of business Wednesday morning until the noon hour out of respect to the memory of John W Gates whose funeral takes place in New York City tomorrow morning

A Plea From a Mother

Judge Felder has called a meeting together of our citizens to consider the boy problem of our city Let us all go and encourage the judge in this great forward movement he has inaugurated to educate the boy in honesty—to make better citizens of this younger generation of the boys in our midst

To my mind education environment and honesty are synonymous for per se a child takes what it wants, so do our domestic animals until they are trained not to so did the primitive man take his club and go forth in conquest The strongest won Always the survival of the fittest, so do the ignorant in our midst today, see their more fortunate neighbors accumulate desired comforts and wealth give way to their cupidity, take what they want

So what is crime?

Is it dishonest for our children your baby or mine to seize an object that attracts their attention, and reach its tiny hands cooing and gooing with glee as it grasps the coveted object No, to my mind, it is natural instinct to want to possess that which we desire Until parents teach their children right from wrong, honesty, if you please, they do not know they have done wrong to take what they want

Here in our midst we have a class of boys of whom it is my mission to talk today to whom my heart reaches out in yearning sympathy The boy who grows up on the street, the boy who is without adequate home influence, the boy who is wandering astray, whose pathway is winding around to lead him to Gatesville, or perhaps worse the boy whose father is a drunkard whose mother has to work to help support the family the boy whose parents think little of and have little to be row upon his training He is the little fellow who follows his inclination natural instinct per se, if he hears curse words, sees cruel, selfishness is half clothed, half fed, more used to dodging blows than to kind treatment, can you wonder this little fellow wanders astray?

Nearly twelve months ago I saw on our streets a boy of some 14 years working with the street gang, chained with hardened criminals We talked about it we thought about it, but what did we do about it?

Today we have our juvenile court but what do we do for it? Do we encourage and sympathise with the juvenile judge? His work is purely volunteer work—not remunerative He has no funds to adequately prosecute this work, no intermediary place for the mischevious little probationers, no probation officer Nothing but his firm determination to do his duty as best he can under these limited circumstances I ask what are we going to do to help him? Some few days ago three of our town's boys were sent to Gatesville They are sons of old residents here There is one other boy sentenced to go there on probation now There are numerous boys needing council guidance and a helping hand to make men of them Are we going to give them the helping hand? Are we going to shoulder to shoulder with crying in our hearts My son, I have a son, and but for the grace of God there goes my son! Educate these boys teach them the difference between skulking idle mischief mongers and the independence of being wage earners

Let's all go out and meet with Judge Felder Wednesday evening and see if we can find a solution for this boy problem for in the council of many there is wisdom It will also encourage the Judge in this good work he has taken up

Reform the boy and after awhile there will be no criminal.

A MOTHER

GATES' BODY HAS REACHED NEW YORK

Funeral Will Take Place Tomorrow at Plaza Hotel—Friends From All Over Country to Attend

By Associated Press

New York, Aug 22—The body of the late John W Gates arrived today accompanied by Mrs Gates and his son Charles The funeral will take place tomorrow morning at the Plaza Hotel Numerous friends from all over the country including a Port Arthur Texas delegation will attend

To Seek Uniformity of Food Laws.

Duluth Minn Aug 22—The problem of how best to bring about the much needed uniformity of the food laws of the various states of the Union was the main topic of discussion at the meeting of the Association of State and National Food and Dairy Departments which was held here today Secretary of Agriculture Wilson who is one of the strongest supporters of the uniformity movement was present at the meeting and delivered an address in which he explained the existing conditions and pledged himself to do everything in his power to bring about uniformity of food regulation

NO MEETING DIRECTORS CHAMBER OF COMMERCE

No meeting of the directors of the Chamber of Commerce was held today, the second time this year that the regular weekly meeting has been passed In explanation of the failure to have the meeting it is stated that there was nothing of importance to be considered and quite a number of the directors are out of the city at this time President Huff and First Vice President Blair are in Colorado as are also J A Kemp and Frank Kell while Dr I M Bell J B Marlow and N Henderson are at Austin in the interest of the special road law for this county

The meeting on Tuesday of next week promises to be an interesting and important one as the matter of the new road law if passed and an election for the purpose of voting bonds in this precinct will be up for consideration and the proposition for the removal of the plant of the Chanute Window Glass Company to this city will likely come up for further consideration as the result of the conference scheduled to be held at Colorado Springs this week between President Hudson of the company and Mr Kell representing the Chamber of Commerce

EXTRAORDINARY SESSION ENDS

CONGRESS ADJOURNED SINE WIE AT 3 02 O'CLOCK THIS AFTER NOON.

A NOTABLE SESSION

Passage of Reciprocity and Statehood Measures, Veto of Tariff Bills and Many Investigations

Special to The Times.

Washington D C Aug 22—The extraordinary session of the 62nd Congress, described as the most strenuous session of the national legislative body in years, adjourned sine die at 3 02 p m today The regular session will begin December 4th

The passage of the Canadian reciprocity pact and the resolution admitting New Mexico and Arizona to statehood are the two greatest accomplishments of the session

The president's veto of several bills reducing the tariff on many articles is believed to be no less important than the positive legislation as they will create the issues on which the national campaign of 1912 will be fought

Just before adjournment the President's veto of the cotton bill was read in the House The veto and the bill were referred to the committee on ways and means where they will remain until congress reconvenes in December

POTTERY PLANT WILL LOCATE HERE

Wichita Falls is to have a pottery plant as one of the industrial acquisitions for 1911 This announcement was made today by Secretary Dry of the Chamber of Commerce following the receipt of information form L P Donaldson at Winnsboro that he had decided to move his plant to this city

Mr Donaldson was here some time ago looking over the situation with a view to locating in Wichita Falls and he was so favorably impressed with the location that the decision has been made to make the change

The plant is not a large one but it is the intention of Mr Donaldson to materially increase its capacity soon after removal and to add thereto as fast as the conditions will justify He expects to begin the work of transfering the machinery at once and will probably be ready for business at this place within the next few weeks

Governor Will Not Interfere

By Associated Press

Austin Texas Aug 22—Governor Colquitt notified local officers today that he would not interfere with the hanging of Leon Martinez the Mexican convicted of murdering Miss Emma Brown His execution will take place Sept 1 It will be the first legal hanging in Reeves county

REGULATIONS FOR PUBLIC SERVICE

THE NEW ORDINANCE ORDERED DRAFTED WILL PROHIBIT CERTAIN CHARGES

COUNCIL IS UNANIMOUS

Charges For Turning On Water After Cut Off Deposits Charges for Meter Tests Under Ban

That an ordinance will be passed by the city council governing the charges of public service corporations was decided upon at a meeting of the city council held this morning, when the city attorney was instructed to draft a temporary ordinance to be submitted at the next meeting of the board of aldermen.

The action of the council with reference to this matter is a result of complaints filed of practices not contemplated in the franchises of some of the companies now operating in the city, with special reference to the water and light company and the gas company The particular objection as to the water and light company as brought out in the discussion at council meeting this morning was the practice of charging one dollar for turning on the water after it had once been cut off as well as the alleged practice of demanding a deposit for light service in advance of making connection The opinion of a majority of the aldermen present, as expressed was to the effect that such demands were unreasonable and out of harmony with the terms of the franchise and the city attorney was instructed, in drafting the ordinance to prohibit the practice in the future

Objections regarding the practices of the gas company, as brought out at the meeting this morning include the charge of $1 for moving a meter from one house to another, the charge of $3 alleged by some to have been paid for meter tests, and the rule requiring advance payments before the service is furnished The city attorney was also instructed to prohibit these practices in the ordinance to be submitted

The ordinance, as planned, will provide for a general regulation of the charges to be made, including the charges for service, and while it does not indicate that the rate will be lowered still it is understood that there will be provisions for a reduction in some instances over that prevailing at this time It was the sentiment of the council that the ordinance should be made to conform to the state law in order that there would be no trouble in enforcing its provisions and for this reason no undue haste will be exercised in the consideration of the matter Members of the council also wish to acquaint themselves with the question of rates in order that there may be no unjust provisions in the law to be enacted It is possible that the ordinance will be presented at the next meeting of the council and will then lay over until the members have had time to study its provisions carefully

INVITING VISITORS TO THE SOUTH

Washington D C, Aug 22—Managing Director Dawe of the Southern Commercial Congress will leave Washington early in September direct for El Paso Texas He will meet there Col D C Collier Director General of the Panama California Exposition of San Diego Mr Dawe and Col Collier will then travel rapidly over the States of the South in order to explain in large cities and before all leading Commercial organizations the purpose of the All South Conference to be held in Memphis October 9th The itinerary so far arranged includes El Paso San Antonio Houston Little Rock Shreveport Monroe Vicksburg Meridian Birmingham Montgomery New Orleans Savannah Charleston Raleigh Chattanooga and Nashville

This All South Conference is called by the Southern Commercial Congress the South in Commercial Secretaries Association the Business Men's Club of Memphis the Chamber of Commerce of Atlanta the Chamber of Commerce of Houston the Progressive Union of New Orleans and the Panama California Exposition of San Diego The purpose of the Conference is to voice an invitation to all citizens of the United States to visit the South and witness its advancement for the transition in recent years has been so rapid that a large proportion of the public have not adequate knowledge of conditions It is also the purpose of the conference to urge Pacific Coast tourists to traverse the South and see the diversified industrial development and to use Southern railroad

The air line with [illegible] this place was shipped to Amarillo today where it is interested the company will attempt a deal under contract with the business men of that city

PISTOL DUEL IS CAUSE OF FIRE

FIGHT AT FANNIN, GOLIAD COUNTY HAS SEVERAL DIFFERENT RESULTS.

ONE MAN LOST AN EYE

Bullet Penetrated Gasoline Can, Explosion and Fire Followed—Loss About $50,000.

Goliad, Aug. 22.—One man's right eye shot from its socket, another scraped by a passing ball, also $50,000 worth of property destroyed by fire is the result of a fight at Fannin, Goliad county, Sunday morning about 10 o'clock.

The trouble began Saturday afternoon, several Mexican altercations having taken place on the streets. Willie J. E. Drake, formerly of Travis county, was quarreling with a Mexican Frank Hall interfered, which interference, together with some previous trouble between Hall and Drake caused a wordy war between the parties, some hard language being used. The trouble between Hall and Drake was resumed Sunday in the town of Fannin about 10 o'clock when according to the statement made by Hall, he was fired upon by Drake and one Ed Catlett, Drake's brother-in-law Hall stating that three shots were fired at him before he realized he was the target that he then ran into a restaurant, secured a pistol, went to the back door and returned the fire firing four shots. It is estimated that some twenty or thirty shots were fired in all.

Only one shot took effect, being the one that hit Hall in the right eye, except one shot that scraped the cheek of Charlie Smith. Hall used a pistol, Drake a Winchester and Catlett a pistol.

Drake and aCtlett deny the foregoing statement, but have given no counter statement. One of the shots pierced a gasoline can in the restaurant which set fire to the building. A pool room, the two market buildings belonging to C. F. Bego, the saloon belonging to Charlie Smith and store and warehouse belonging to H. B. Hanley were consumed. Several other store buildings and the residence of H. B. Hanley caught fire several times, but were extinguished before much damage was done. Nothing was saved from any of the buildings except that H. B. Hanley took $1000 in cash and some papiers from his safe. The estimated losses are: H. B. Hanley, $25,000 to $40,000, with about $20,000 insurance; Charlie Smith $3000, slight insurance; C. F. Bego, $500, no insurance.

All of the parties mentioned, Hall, Drake and Catlett, have been arrested.

RAILROAD COMMISSION TO INSPECT THE KATY

Officials of the M. K. & T. Railway in Texas, accompanied by members of the State Railroad Commission are expected in Wichita Falls the latter part of this week on a trip of inspection of the Katy lines in the State.

The party started from San Antonio today.

A special train was run out of Denison yesterday to carry the commissioners on the trip. At Dallas the special picked up A. D. Bethard, general manager in Texas, and C. M. Bryant, assistant general manager. Engineer Wilkerson and Conductor Arthur were in charge of the train.

Inventor of the Bessemer Process.

Pittsburg, Pa., Aug. 22.—Today saw the centenary of the birth of William Kelly, who is generally credited with the invention of the Bessemer process for converting melted cast iron into malleable steel, a discovery which revolutionized the steel industry and helped to make Pittsburg and the neighboring towns one of the greatest industrial centers in the world.

Kelly was born in this city August 22, 1811, and early in life manifested an uncommon aptitude for mechanics. In 1845 he removed to Kentucky where he acquired an iron works on the Cumberland River. Here it was that he conceived the idea of dispensing with fuel in the process of refining and decarbonizing iron by the introduction of a current of air. After several years of experimenting he finally perfected the process, which was long known as "Kelly's air-boiling process," and which was used for the manufacture of boiler-plates before Sir Henry Bessemer was known.

California Stands Treat

San Francisco, Cal., Aug. 22.—After the notable demonstration of hospitality given today to Eagle in attendance on the national convention of the order now in session here is likely to return home with anything but praise for the city of San Francisco and the State of California. It was "open house" day on the convention calendar and practically everything in the way of solid and liquid refreshment was dispensed free to the visitors. Ten thousand gallons of choice wine and carloads of California oranges, figs, plums, olives, cherries, grapes, raisins and almonds were distributed with a lavish hand.

Stamp Exhibition in Chicago.

Chicago, Ill., Aug. 22.—The twenty-fifth anniversary exhibition of the American Philatelic Society opened in Chicago today, to continue through the remainder of the week. The exhibition has attracted a notable gathering of stamp collectors from all parts of the United States and Canada.

MOVEMENT GAINING IN FORCE DAILY

MEETING OF CATTLEMEN AT FT. WORTH SEPT. 12 PROMISES TO BE MAMMOTH ONE.

TO SEEK PRICE REMEDIES

Two Plans Will Be Submitted in Effort to Find Where the Big Profit Goes.

San Antonio, Tex. Aug. 22.—The mass meeting of producers and consumers of meat in Texas, which has been called for Ft. Worth, September 12, for the purpose of ascertaining why the cattle raisers are selling their cattle at a loss and yet the consumers paying a higher price for dressed meat than ever before and to seek to remedy this economic discrepancy, promises to be even a greater gathering than I had anticipated," said Ed Lassater, president of the Texas Cattle Raisers Association of Texas, who arrived in San Antonio this morning from Galveston.

"It is the inauguration of a national movement," continued Mr. Lassater. "Taken up as it has been by the Farmers Union of Texas it will be spread by like organizations in other states. The farmers realize that as the big ranches are cut up they must become meat producers to a greater and greater extent. Yet until existing conditions are radically changed they cannot afford to do so for the producer is selling at a loss."

Mr. Lassater stated that the matter had been taken up in every section of the state and that if anything the consumers of meat are displaying a greater interest in the coming meeting than are the producers. Delegates are being named by mayors, boards of trade and abor unions in many cities and towns and the delegation of consumers alone will form a large aggregation.

On a former occasion Mr. Lassater stated that there was a difference of about 300 per cent between what the producer receives for meat from the packer and what the consumer buys it for from the retailer. This is the condition which the producers and packers in joint session will seek to remedy. Plans are even now formulating.

Mr. Lassater would not state what probable action would be taken at the meeting in seeking to curtail the middlemen. He stated that a plan would be worked out by the executive committee also.

A rumor is current that the outcome of the meeting will be the organization of a $2,000,000 central selling agency to handle all of the cattle sent to the Fort Worth market by members of the Cattle Raisers Association, but this was not corroborated by Mr. Lassater. It is said that a plan will be suggested to organize an independent butcher shop, capitalized at $50,000, prepared to handle an enormous business. It is calculated that the butcher shop could buy its cattle on the open market at the stock yards and have them slaughtered at the independent packing house and delivered at the shop for the retail trade.

NATIONAL CONVENTION INSURANCE COMMISS'NR'S

Milwaukee, Wis., Aug. 22.—Present prospects indicate that the annual session of the national convention of insurance commissioners, which opened in this city today, will be a very profitable meeting. Commissioners, deputies and actuaries representing nearly every State in the Union are in attendance.

Proposed reforms in the conduct of industrial insurance companies will form the most important subject of discussion. Recent investigation, it is said, has developed the fact that some companies, taking advantage of the helplessness of their clients, who are most of the poorer class, compromised or adjusted claims, so that thousands of dollars, withheld from victims of accidents or from their widows, children, or dependents, went to increase dividends or surpluses of the companies.

GLORIOUS HAIR.

If You Have Eczema or Any Skin or Scalp Trouble Here is Good News

You have probably tried one or more remedies with small success. This costs money and it is certain. We want you to try ZEMO, the clean liquid remedy, but we do not want you to pay for it unless you are satisfied with results. We have so much faith in Zemo that we want you to try it by sending to the E. W. Rose Medicine Co., 2032 Olive, St., St Louis, Mo., 10c in stamps to pay postage for a generous sample of ZEMO and ZEMO (antiseptic) SOAP and our 32 page booklet on skin diseases OR get a bottle today at Miller Drug Store and if you are not pleased with results they will refund your money.

ZEMO is a clean scientific preparation that washes away and destroys the germ life and the poisons that cause trouble. Stops the itching at once and results can be seen after one application. ZEMO absolutely cures eczema in all its forms as well as hives, rashes, acne, tetter, barbers itch, prickly heat, etc., on infants the same as on grown persons.

Endorsed and sold by druggists everywhere and in Wichita Falls by Miller's Drug Store.

FARMERS ARE ASKING FOR COLD FACTS

Since the Advent of the Very Depressing Hot Wave Government Crop Reports Are Out of Date.

Ten days ago the government department of agriculture sent out an exceedingly optimistic report upon the conditions of the growing crops. A week or ten days can work wonders in Oklahoma and also in the whole cotton growing sections of the south and southwest.

We are right now in the midst of one of those wonderful transformations. Where two weeks or ten days ago, cotton was promising as it had rarely ever promised before, today it looks almost done for waving in the hot wind and sunshine. The 15 million bale crop, so long predicted and so loudly heralded, has gone glimmering and if we make as large a crop as we made last year, the weather conditions will have to change for the better right now and change mighty fast.

Cotton should command as good a price this year as last year for the present conditions all over the cotton section now demand it. The bear movement will have to give away sooner or later, the bolls needing no stronger ally than the present weather conditions. In our feeble judgment our farmers should not hasten too rapidly the selling of the crop for surely better prices will prevail later.

If the government will take another poll of the conditions which now prevail there will be no doubt as to the very different prospects which will be found to exist.

Really it would be conservative to say that cotton has depreciated fifty to seventy-five per cent in the last week or ten days. That is to say where cotton promised one-half, three-quarters or even a bale to an acre ten days ago, now a third, a fourth, fifth sixth of a bale can not be expected if the weather conditions do not soon change. However, we are looking and hoping for the change in the weather.—Mangum Star.

Rohatch's Mineral Water.

is highly recommended by physicians and patrons who have tested its merits, for indigestion, catarrh of the stomach, kidney and bladder trouble. This water stimulates the secretions of the stomach, increases digestion and favors a more complete absorption of the food, and prevents the action of germs that cause typhoid and other infectious diseases.

This water can be purchased at the wells or delivered in jugs or cases. This well is located one mile south of Alamo school building in Floral Heights, two deliveries daily morning and afternoon. G. J. Rohatch, Owner. Phone 1601—1 long—4 shorts.

BAKED BEANS ARE SO CONVENIENT

So often, especially these hot days when any cooking is a burden, it does sorely puzzle the host of housekeepers to keep the table well supplied with plenty of wholesome, economical and appetizing food without simply wearing one's self out in the effort.

But literally hundreds of women are learning the convenience and value of the Campbell's Beans.

Notice we say baked beans.

Campbell's beans are really baked in the old fashioned way and as a result they can be served more often than any other brand of beans without becoming monotonous.

Campbell's beans go better cold than any other brand—that means added convenience and economy.

PROBATION LAW SOON TO BECOME EFFECTIVE

San Antonio, Texas, Aug. 22—No law that has been passed in Texas has met with more general favor than the act giving courts power to suspend sentence This law will become operative when the courts of the state meet in autum session It is construed as a long step toward curing crime rather than punishing It is maintained that many persons, particularly the young commit crimes as a result of inexperience or a wrong impression that they would not commit if they had been properly directed This probation law will give them a chance to work out their own reformation and not stain their reputation with a term in prison

It is provided in the law that after one accused has given proper account of actions for a time after the sentence that the court may declare the accused free of the law The women's clubs of the state were active in having the law passed

HEALTH AND SUMMER DRINKS.

A Commissioner Says We Are Well or Ill According to Our Hot Weather Diet.

Health Commissioner Lederle of New York City, during the extreme hot weather of July emphasized the fact that upon the diet depended the health of the average person, and their ability to stand the excessive heat Meat he declared shhould be in the daily menu only once in twenty four hours and cold sweet beverages should be shunned almost entirely Such drinks he declared upset the digestion even though affording momentary relief The best of all thirst quenchers he added is plenty of cool water, not iced to a frigid temperature

Indeed, all physicians agree that water in summer time connot be taken in too large quantities, to make up for the waste but the proviso is that it must be pure The usual test for pure drinking water is that it be free from color, smell or taste, bright and aerated and free from all deposits It is safe to assume that water is seldom found that exactly fulfills these conditions Water infected with typhoid germs may be as clear as crystal, odorless and tasteless, while the malodorous water of a spring impregnated with sulphur is a veritable fountain of health,

The worst impurities are those which only show themselves upon chemical analysis While an ideal water supply contains neither animal or vegitable life, its power of dissolving all substances of earth through which it flows renders it almost an impossibility to obtain water without a trace of one or the other No one indeed need be seriously shocked at the discovery of perfectly harmless insects or water worms such as are often found in the purest spring water, or the turbidness occasioned by a severe storm But there arises the necessity for filtering or boiling water that is used for drinking or for cooking purposes The ice supply is too frequently a menace to health, holding as it does the impurities from pond and river Instead of adding ice directly to the drinking water it will be found much better to put the water in clean bottles and lay it on the ice

Water that is too hard should be boiled before using A filter is a necessity with the average water supply Not the cumbersome old filter formerly in use, but a small inexpensive one that can be frequently cleaned out and renewed

A home made filter that fills all the requirements necessary consists of a thin muslin bag of coarsely crushed chacoal tied to the faucet.

That many serious diseases are directly tracable to impure drinking water, and that a variety of minor ailments result from merely a change in water, goes without saying Many a case of typhoid fever that develops in the fall has its origin in the moss covered bucket' or the picturesque well that add poetic charm to the old farm house but has, alas, too close an affinity for the barnyard or the kitchen drain for the well being the consumer

If, in casting about for summer quarters more attention was paid to the water supply and the sanitary environment, and less to haggling over the lowest possible terms, the health dividends, as declared in the fall, might be much more satisfactory

Misses Simmons have moved their millinery store to 618 8th street, next door to Anderson & Patterson. 80-tfc

SHIPPING 'LOUPES AND WATERMELONS

3000 CRATES CANTALOUPES AND THIRTY CARS WATERMELONS SHIPPED FROM VERNON.

ANOTHER NEW BUILDING

J. E. Lutz Will Build Three Story Office and Store Building Will Be Constructed.

Special to The Times

Vernon, Texas, Aug 22—Shipments of cantaloupes and watermelons from this point total up to date 3,000 crates of the former and thirty cars of the latter This year's crop fell short of the average yield for this county owing to drouthy conditions during the spring and early summer The returns, however, have been good owing to the prevailing good prices.

Plans have been completed for the erection of a three-story office and store building here on the corner of Main and Texas streets by J. E Lutz a local capitalist Denton pressed gray brick and white stone will be the materials used and the building will be one of the handsomest in this section of the state, costing between $15,000 and $20,000 Bids have been asked for and construction will begin at an early date

The local postmaster has been notified that the Vernon office has been designated as a postal savings bank on and after Sept. 18th

"THIS IS MY 53rd BIRTHDAY"

James O'Connell

James O Connell, president of the International Association of Machinists and one of the foremost labor leaders in America, was born in Minersville, Pa, Aug. 22, 1858 His father died when he was two years old and later the family moved to Oil City, where Mr O'Connell spent his boyhood days and received his schooling At 16 he became a machinists apprentice, spending six years in learning the trade After becoming a journeyman he went to Detroit, where he remained about a year and then returned to Oil City He affiliated with the Knights of Labor in 1886 and five years later he became prominent in the international Association of Machinists In 1892 he was elected president of the last named body The organization at that time had but 2,500 members Under the presidency of Mr O'Connell the membership has increased to 75,000 and the machinists are now among the best organized of any of the crafts Since the affiliation of the organization with the American Federation of Labor Mr O'Connell has been one of the vice presidents of the Federation

Columbia, S C., Aug. 22.—The capital city of South Carolina is alive with Confederate veterans and their friends, who have assembled here from all quarters of the State for the annual reunion of the South Carolina division of the United Confederate Veterans The city is extending a hearty welcome to the veterans The initial session was held this morning and was devoted to the opening addresses and the exchange of greetings The proceedings will continue over tomorrow

Petrolia Banks Consolidate.

On Monday of this week a deal was consumated whereby the Continental State Bank of this place took over the affairs of the First Guaranty State Bank of this place. The details of the deal were not given out but George Fleming who is the cashier of the First Guaranty State Bank is authority for the statement that the Continental people made them a very flattering offer and they accepted

The First Guaranty State Bank was organized in May 1910 by Herbert Spain who resigned the position of cashier last December, leaving the affairs of the bank in a very bad condition. Mr Fleming was elected to fill the vacancy Through his diligence and personal influence the confidence of the people was maintained and the bank pulled through—Petrolia Round up

I will open a private school Sept 11th Primary work a specialty, same books and course of study as used in public school For further information call on Mrs A. J Miller at 702 Lamar avenue. Phone 563. 83-tfc

SOME THINGS EXPORTED BY THE UNITED STATES

Speaking generally, American exports have increased immensely in the last over the previous five years the average annual gain being no less than $400,000,000 This may be in part attributed to the higher scale of prices that have generally prevailed but the increase is due largely to volume as to prices In manufactures ready for consumption the gain has been remarkable, rising from $318,000,000 in 1901 to $460,000,0000 in 1906 and to $800,000 000 in 1911 It is at once interesting and instructive to extract from the mass of imports a few of the more familiar things and to show the jump they have made in foreign favor within a decade Thus boots and shoes have risen from $5,500,000 in 1901 to $13 700,000 in 1911, and this notwithstanding the fact that American machinery is now largely employed in the manufacture of "American" footwear abroad In the same period builders' hardware and tools have advanced from $9,000,000 to $17,000,000 Plants for the manufacture of "American" agricultural machinery are now in operation in foreign countries, nevertheless, the exports of American made mowers and reapers last year were greater than were the exports of all agricultural implements ten years ago Plows and cultivators in that time climbed from $1,888,000 to $8,600,000

Automobiles were not noted as a separate item of American exports until 1902 In that year foreign sales of the new vehicle amounted to only $950,000; last year the figure reached $13,000,000, the gain over 1910 being $3,500,000 It is worth mentioning in passing that in 1911 Canada took $6,000,000 worth of the automobile product of this country

Large increases are shown in photographic goods, in mineral oils, in electrical appliances and machinery, in typewriters, sewing machines cash registers, metal working machinery pipes and fittings, iron and steel wire etc. Within ten years, turning to another classification, copper bars, pigs and ingots have increased in sales from $41,000,000 to $99,000,000 Behind this, of course, is written the story of the advance in electrical development

It is a question whether it speaks well for the United States that so much copper should be permitted to leave these shores as raw material In this and in some other respects the showing, while indicating a tremendous growth along some lines is not satisfying The growth of exports as it is exhibited here emphasizes the possibilities of expansion rather than proves that these possibilities are being made the most of There is still a tenacious clinging to the home market, still diffidence as to overseas commercial venture It is probable that American manufacturers will never find their way in proper volume into all the avenues of world trade until the foreign commerce of the country shall be served, at least to a reasonable extent, by American ships

PARISIAN SAGE.

The Best Family Hair Dressing, Grower and Dandruff Cure on Earth.

Dear Madam You are responsible for the condition of the hair of your entire family

You don't want your husband to grow bald, you don't want your children to grow up with scant hair and scaly scalp You want lustrous hair for yourself and every member of your family

Then always use Parisian Sage in your home It is delightful refreshing hair dressing that kills dandruff germs, banishes dandruff, stops falling hair and itching scalp and puts vigor and vigor into the hair, or money back Large bottles 50 cents at O. F Marchman and druggists everywhere

"THIS DATE IN HISTORY,"

AUGUST 22

1485—Richard III slain in the battle of Bosworth Field, the final conflict between houses of York and Lanter.

1651—Charles II. defeated by Cromwell at Worchester.

1776—Gen. Howe landed 10,000 British soldiers on Long Island., near the narrows.

1811—William Kelly, inventor of the Bessemer process for making steel, born in Pittsburg. Died in Louisville, Feb. 11, 1888.

1849—Venice capitulated to the Austrian army under Marshal Radetsky

1861—The Confederate Provisional Congress at Richmond closed its third session.

1870—The President proclaimed the neutrality of the United States in the Franco-Prussian war.

1878—The independence of Servia proclaimed by Belgrade

1889—President Harrison laid the corner-stone of the Indiana Soldiers and Sailors Monument at Indianapolis

1896—David B. Francis of Missouri succeeded Hoke Smith of Georgia as Secretary of the Interior

1903—Lord Salisbury, former Prime Minister of England, died. Born in 1850.

THE MEETING TOMORROW NIGHT

There is no more serious problem in Wichita Falls than that presented by the delinquent boys. Of course the first duty of every citizen is the proper training of his own boy, but there remain other boys whose parents have either failed through neglect or through inability to cope with the situation, to train them as they should be These boys will either become confirmed criminals or useful citizens according to the interest of the public intheir welfare

About twelve months ago there was considerable agitation of the boy question, resulting in the establishment of a juvenile court Immediately upon the establishment of this court enthusiasm waned and County Judge Felder ex-officio judge of the juvenile court was left to shoulder all the work and responsibility himself He believes that with the proper cooperation of the citizenship much good can be accomplished not only for the delinquent youth but dependent children as well .

The mass meeting tomorrow night has been called to discuss these problems and every citizen having the welfare of children at heart should attend.

At this morning's session of the City Council it was held that the principle inaugurated by the gas company for making a charge to the customer for testing of meters, and for the removal of a meter from one house and replacing it to another, was wrong, and shall not be permitted in the future The Council also ruled that the light company shall not be permitted to collect for service in advance. The water company also came in for its share, and in the future, after the company has been once paid for cutting in the service, and cuts it off of its own motion, the customer shall not be required to pay a second fee for cutting in of service There has been considerable complaint along these lines for some time, and it is perhaps just and right that the City Council has taken notice of it in a way that looks like the Council means business. While the City Council was at the work of rectifying complaints made against the gas, water and light company, it might have gone a step further and touched up the telephone company a bit. That concern is not only charging a higher rental for its phones in Wichita Falls than it does in some other cities of equal population, but it has an iron clad rule that all regular patrons must pay a month in advance for rental service, and new phones must be paid for from three to six months in advance before the company takes the chance of cutting in the service. It strikes The Times that if the telephone has not been given the pale blue sky for a limit in the conduct of its business, it is about time some restrictions were being placed on it

WHAT BAD ROADS COST.

(Kansas City Journal)

If you want to know what bad roads cost the country as a whole, keep in mind that American farmers are paying 23 cents a ton for hauling, when European farmers are paying 7 to 9 cents Now the Interstate Commerce report shows that railroads yearly haul 65,000,000 tons of farm produce, and that the average haul from farm to market for the whole country is nine and a fraction miles. Put the cost of hauling at a round $2 a ton for nine miles and you have the cost of hauling farm produce at a round half billion dollars a year Half that cost is waste, solely owing to bad roads, says Collier's Weekly.

Look squarely at the facts!

Two hundred and fifty million dollars a year wasted on bad roads which the farmer and consumer jointly pay.

The charge to haul wheat from New York to Liverpool, 3,100 miles is 3.5 cents per bushel. The charge to haul a bushel of wheat from farm to market 9.4 miles is 5.11 cents The storage on wheat at water fronts, 9 cents a bushel a year. Do good roads concern you?

Total up the whole cost of bad roads, the waste on haul, the storage at water fronts, the extra price paid for feed, owing to scant markets in spring—and you have an expense bill of a billion dollars a year against bad roads, or on a basis of 80,000,000 a tax of $12 50 a year, which every man, woman and child pays for bad roads.

The results of bad roads add yearly tolls of $12 50 against every person who eats farm products. That yearly waste would build 20,000 miles of A1 macadam roads every year, or in ten years would turn every country road into such a highway as the Romans' famous Appian way, basing the cost of the very highest cost of $5,000 a mile Though macadam roads sometimes exceed that figure, owing to special differences of swamp or bridge work on easy grades near the source of the rock bed, the average has come as low as $2,000; in New Jersey for instance.

With access to market and best ruling prices, net returns increase and farm lands jump in value. It is an actual fact, where good roads have gone land has increased in value from $2 to $9 per acre.

Another curious but perfectly natural result of good roads is population. Buyers buy more readily when they can market easily. Take these figures.

In twenty-five counties, where there was only 15 per cent of improved roads, the population decreased in the ten years from 1880 to 1900, a total of 77,880

In twenty-five counties, where 40 per cent of the roads were improved the population increased in the same period 778,000

The effect of good roads on school attendance needs no proof. In the five states having the best roads the average attendance is 77 per cent of enrollment In the five states having the fewest roads the attendance averages only 50 per cent

The best way to build a town is to patronize the industries already secured If this is done, those who are at the head of industries which the town is making an effort to land will have more faith that promises of loyalty and home patronage will be carried out. There are some towns that can preach louder "patronize home industry" and practice it less than some other towns that do not make so much noise along that line. Many an enterprise has almost bankrupted itself in preparing to take care of home patronage, and then not got it.

At last accounts Al Hard, who made his escape from the Vernon jail, was still at large. As this was the second time this man, charged with a double murder, has made his escape it should be thoroughly investigated by the grand jury of Wilbarger county. It will be remembered that it was not deemed safe to keep Hard in the Wichita county jail, but as to whether it was thought that the friends of Hard would release him from prison, or that those who resent the commission of such a foul crime would mob him, The Times is not sure. The Times will admit that there was considerable feeling here against Hard but at the same time there were those who were ready to defend him in any way in their power. Another strange thing concerning this second escape of Hard is that it was not discovered until the middle of the next day or about twelve hours after he escaped

The Hardness of Diamonds Explained

The average person is probably acquainted with eight or ten varieties of precious stones, but as a matter of fact there are from 80 to 100 varieties in every day life and perhaps others that are more or less often seen

The property of hardness is of vital importance, says Shop Notes Quarterly. The beauty of a great many precious stones is impaired by rough and improper usage. Only those stones which combine great beauty and rarity with a high degree of durability can lay claim to the title of precious.

A scale has been devised to indicate the relative degree of hardness. On this scale the diamond is represented by ten, the sapphire, nine; topaz eight; quartz, seven, and feldspar (moonstone), six All stones below the number of five are regarded as too soft for articles of jewelry

In each of these degrees, however, there is considerable variation. In the diamond alone there are very great differences of hardness, as between stones coming from different localities, and the same remark applies to sapphires

In order to value stones one should be able to gauge, to a certain extent, the relative weight. One stone of two carets weight may be half the size of another of equal weight. There are several methods of determining this particular property; for instance immersion in a heavy liquid of known density or weighing by a hydrostatic balance

The color of gem stones, although of greatest importance commercially, is of little or no value in determining their particular identity Certain stones show characteristic shades of color, it is true, but it is only after various tests have been applied that color can be considered at all as evidence of value. All minerals in their pure state are pure white and the color shown is due to mineral pigment in many cases.

Refraction is single or double according to the system of crystallization, and the double refraction is due to irregularity of the crystallized structure Some stones have one direction only in which there is not splitting up of the rays, and others have two, giving twin color effect Colors in the diamond are due to its very high refractive index and high dispersive property, and the effect is seen in distinct flashes of color. This "fire" is not seen in stones badly or improperly cut.

The iridescence of the opal is due to the amount of water in its composition and contraction fissures in the stone, but similar characteristics are found in other stones, where films cause diffraction. The opalescence of the moonstone is caused by the enormous number of planes of separation in the stone, light being totally reflected from these planes.

POLITICS AND POLITICIANS

Newport is the first Kentucky city to try the commission form of government.

The late Senator Frye served in congress continuously for over thirty years.

Congressman Rodenberg of Illinois has accepted an invitation to deliver the Kansas day oration at Topeka next January.

Edward Freeman, editor of the Pine Bluff Commercial, is a candidate for the Congressional nomination in the sixth Arkansas district

Tacoma would like to have the Democratic National convention meet in her new stadium, which has a seating capacity of thirty thousand.

United States Senators Gore of Oklahoma and Martine of New Jersey are to speak at the Democratic outing at the Trenton Inter State Fair on August 23

The "wets" have begun their campaign to have the question of Local option submitted to the voters of Oklahoma this fall. The state is now State-wide prohibition.

Adherents of Governor Woodrow Wilson are now in Vermont and New Hampshire laying plans to capture the delegations to the Democratic national convention for Wilson.

In the Maryland primaries next week Philip Lee Goldsborough, who holds the position of Internal Revenue Collector, will receive the Republican nomination for governor without opposition.

Lieutenant Governor Frothingham Speaker Walker of the general assembly, are engaged in a lively contest for the Republican nomination for governor of Massachusetts.

The Illinois equal suffrage association is planning an automobile tour which will begin at Danville, September 11 and terminate in Chicago a week later. Members of the association will speak in the interest of equal suffrage in all cities of importance along the route.

The Prohibitionists will be the first to arrange for the national campaign, having decided to choose the date and place of their convention the sixth of next December. This will probably be the only party to begin the presidential activities of 1912 in 1911.

Louisiana is in the midst of one of the liviest campaigns for United States senator that it has experienced in many years. It is a three cornered race, with Governor Jared Y. Sanders Congressman Robert F. Broussard of the Third district and Congressman Arsene P. Pujo of the seventh district as the contestants.

The passing of Senator Frye of Maine means that Governor Plaisted will name a Democrat to fill his unexpired term, which will expire March 3rd, 1913. It will be the first time in half a century that the pine tree state has been represented by two Democrats in the United States senate. The last time was in 1848-53, when her senators were Hannibal Hamlin and James Ware Bradbury, both Democrats

Ice cold watermelons on sale at the Wichita Ice Co. 84-tfc

Weekly Petroleum Review.

(Oil and Gas Journal)

Nothing has occurred in the oil field operations during the last week to excite the attention of the producer beyond the average of completions, nor to extend materially existing producing territory Prospects are good at Electra, Texas, in Pawnee county, Okla., in the Carlyle and Lawrence county pools of Illinois and Clinton sand district of Ohio for possible additions to the area of oil acreage, but with nothing in sight beyond wildcat possibilities. There were not so many large wells completed the last week in Lawrence county as in the previous one, A 550-barrel well in the McCloskey pool was as good as could be obtained. In the fields producing Pennsylvania grade oil there were only the average completions. Nor did the Gulf Coast region, the district of surprises, offer anything of an exciting nature. Seasonable rains have broken the drouth in some fields, while operations in others are still delayed by scarcity of water.

The leaser is busy throughout Missouri and Illinois, and large blocks of land are being taken up with a view of beginning operations as soon as the fall rains give promise of plenty of water There is promise of a great deal of wildcat development during the fall and winter months, and the tests will be scattered over wide areas of country in which no wells have been drilled hitherto.

Helpless As a Baby.

Valley Heights, Va.—Mrs. Jennie B Kirby, in a letter from this place says: "I was sick in bed for nine months, with womanly troubles. I was so weak and helpless at times, that I could not raise my head off the pillow. I commenced to take Cardui, and I saw it was helping me, at once. Now, I can work all day." As a tonic for weak women, nothing has been found, for fifty years, that would take the place of Cardui It will surely do you good. Cardui is prepared from vegetable ingredients, and has a specific, curative effect on the womanly organs Try a bottle today. At your druggists

ive appearance in th emorning If was expected to start it last night but arrangements were not perfected in time for the team and man to do the driving and the initial work was postponed for a day.

American Veterinaries Meet.

Toronto, Ont., Aug. 22—Convocation Hall of the University of Toronto was crowded with members of the veterinary profession today, when the forty-eighth annual meeting of the American Veterinary Medical Association was opened today The convention will continue four days, closing on Friday with a big banquet. The exhibition of surgical appliances and apparatus used by veterinary doctors, which is held in conjunction with the convention, is attracting considerable attention

Commissary Men at St. Louis.

St. Louis, Mo., Aug 22—Nearly one thousand members of the National Commissary Managers Association met here today at the Southern hotel for thir annual convention, which is to continue through three days. The association was organized last year at Baltimore and this is the first of its annual gatherings. It is understood that Jacksonville, Fla, intends to make a strong bid for next year's convention. B M Leddy of Dutton, Fla. is the president of the association.

The Wichita State Bank

Wichita Falls, Texas

This Bank and Your Business

There are many banks in the country larger than The Wichita State Bank. They may have more capital and perhaps do a greater volume of business. But for the smaller business man, farmer or manufacturer, had it occurred to you that the small bank is the best place for the beginner to go?

The big bank is often cold-blooded and independent. Your business in the big bank is but an incidental detail, and your interests are scarcely noticed.

The small bank, however, can give your business more time and attention, for it is interested in your success.

This bank while small in comparison to some of the large banks, has ample means and facilities to properly care for your business. Its officers have time to consider your interest and welfare. Your business will be welcome and will receive their best attention.

The Seattle Case.

By Associated Press.

Chesterfield, Va., Aug. 22.—Sheriff Gill was busy today summoning an additional venire of thirty for talesmen for possible jury service in the case of Henry Clay Beattie, Jr., charged with murdering his young wife. When court adjourned last night the jury box was filled but four of the twelve jurymen were subject to peremptory challenge by the defense and it is said these challenges will be exercised The court will open at noon tomorrow.

Wheat-Williamson Nuptials.

Miss Altha Wheat, daughter of W. H Wheat, who is superintending the construction of the federal building at this place, was married last evening at 8 o'clock at the family home, 907 Travis street, to Mr Howard Williamson of Ohio, Rev O T. Cooper pastor of the First M E. Church, South, officiating.

Only the relatives and a few intimate friends witnessed the happy event, the wedding being a very quiet one. The happy couple have not decided whether they will return to the Ohio home of the groom, or remain in this city, but are rather inclined to make their home in Wichita Falls.

Gen L. Woodward, Joe Perry and A. M. McDonald, of Electra, are in the city looking after business matters and making arrangements for the entertainment of the editors when they visit Electra this week

LATE SPORTING NEWS

DEARIE, MY DEARIE REFRAIN NO MORE

FORMER TEXAS LEAGUE TWIRLER TOUCHED UP FOR SEVEN HITS IN TWO INNINGS.

CLEBURNE WAS ROUTED

Final Score Was 19 to 7—Everybody But Witherspoon and Lawrence Hit the Ball.

After the performance of yesterday Fort Worth will hardly be inspired to sing "Dearie, My Dearie," and in any event Cleburne would not feel disposed to join in the chorus. What Wichita Falls did to Deary was a plenty and then some. In two innings he was touched up for seven hits and an equal number of runs and it was with difficulty that the side was retired, so liberal was he with his offerings and so free were his team mates to make errors that were of the costly variety.

The game yesterday was of the rank variety and it was a punishment to those in attendance to see the manner in which the great national past time was abused. It finally developed into a "churrah game" especially on the part of the visitors, who were liberal in everything, even in permitting the Wichita Falls team to materially fatten their batting averages. This latter generosity, however, did not apply to Witherspoon and Lawrence, who in six times at bat could not even rap out a measly single, and each struck out three times.

Larned, who started in to pitch for the Lads, got off well for the first two innings, but in the third he went to the bad and was relieved by Jones, who pitched a good game.

A feature of the game were the two home runs by A. Naylor in which he actually got around the diamond without parking the ball. Stewart for the visitors also knocked a homer, while Guthrie, Brown, D. Naylor and Stewart each annexed three base hits.

The score of the game was as follows:

Wichita Falls—	AB	R	H	PO	A	E
McMahan, lf.	3	1	0	1	0	0
Guthrie, lf.	2	3	2	1	0	0
Brown, cf.	5	4	2	0	1	1
Witherspoon, 2b.	6	0	0	3	3	0

ART NAYLOR DRAFTED TO PACIFIC COAST

Art Naylor of the Wichita Falls team has been drafted for service in the Pacific Coast League, according to a message received last night by President St. Clair of the Texas-Oklahoma League from President Long of the Pacific Coast organization. It is not known what team will claim the services of Mr Naylor but in any event his salary will be $1,200 and the manager of the Wichita Falls team will receive $300 as a result of the action.

Mr. Naylor is a good ball player, and especially good is he as a fielder and batter. For a part of the time he has lead in the batting averages in the Texas-Oklahoma League and indications are that he will conclude the season at the head of the list.

Durant 4, Bonham 3.

Durant, Okla., Aug. 22.—Durant observed a holiday yesterday and one of the largest crowds of the season saw the Educators beat Bonham in a spirited game Jost was knocked out and was succeeded by Haislip in the seventh, who di but little better

Catcher Williamson had his left collar bone broken by a foul tip from Armstrong's bat in the sixth inning. An error at first, a three-bagger and a sacrifice fly-out won the game for Durant.

Score by innings:

Durant	020 000 002—4
Bonham	000 000 021—3

Batteries—McKee and Burge; Jost, Haislip and Williamson

E A. Dale to F. F. Birmingham, 20 acres Waggoner Colony, $2,500 00 cash and other considerations.

I am in the market for Vendor Lein notes and good land loans. Money on hand. R. L. Gillentine, 800 Ohio avenue. 52-3tc

RECEIVE $125 AN ACRE FOR OIL LEASE

One hundred and twenty-five dollars an acre bonus was received by County Commissioner E. A. Dale for the oil and gas rights in 20 acres near Electra, in addition to the usual royalty considerations.

The lease was filed for record today although executed some time ago. F. F. Birmingham is the lessor.

It is also understood that Mr. Dale has received $3 an acre for 1000 acres about ten miles out from Electra with the further consideration that he is to receive $10,000 in cash whenever a ten barrel well is brought in on that tract.

Other leases recorded today were as follows:

S. P. Copeland to G. C. Gray et al, 80 acres N. Henderson survey, $100 and other considerations.

K. S. Jackson to G. S. Gray et al, fifty acres $12.50 and other considerations.

Charity Morris to G. C. Gray et al 80 acres $20.75 and other considerations.

W. R. Pierce to G. S. Gray, 150 acres $160 and other considerations.

Mrs M. Powell to G. C. Gray et al, 180 acres $150 and other considerations.

W. J. Sides et al, to G. C. Gray et al, 100 acres, $150.

TO THE PUBLIC.

Having returned from Chicago, where I took another special course in diseases of the Eye, Ear, Nose and Throat, I desire to announce to the public that I am better prepared than ever before to practice this specialty, having the latest and most progressive ideas in this particular line. My office equipment for this work is second to none in Texas, everything being absolutely sanitary and up to now. A lady attendant always in charge

DR J W DU VAL,
First National Bank Building

When Old Sol

shows his glittering face and starts in to warm things, the creosote begins to boil and the new paving begins to widen out the streets; in fact when the good old Summer time makes Dante's Inferno look like a cold storage plant it is time to spend a whirl where fans whirl the glasses clink, where the white approned lads treat you coldy while every wrinkle in your thirst says thank you every time you sip the cold nectar, the time is today, the place is the Palace Drug Store, and you should bring the girl with you The chaffeur on our big phiz machine has them all down in the dust and panting for breath when it comes to building that fretty, fizzy, fuming foam

We are closed up from 12 30 to 6 00 o'clock every morning, the balance of the time we are on the bag with the big mit.

AMUSEMENTS.

At The Colonial.

At the Colonial, last night the Russell-Davis Company, together with a three reel picture program, pleased a most enthusiastic audience and well deserved the approbation given them The Russell-Davis Company plays a repertoire of comedy dramas in shortened form, giving two selections each night, with good vaudeville in addition. Last night the plays were "The Substitute," and "The Awakening," in both of which Mr. and Mrs Russell are cast in parts that fit them admirably.

Tonight they give "The O'Gradys" and "A Lesson in Shakespeare," both of which are farce comedies. James Allard, the blackface comedian will also appear, both in the cast of the plays and in the vaudeville tonight

Auto Races at the Gem.

Manager Tritch of the Gem, announces for Thursday the return of the great International Automobile races, which were run at Indianapolis on May 30, and shown here a couple of weeks ago The picture attracted such universal attention and so many people were unable to see it by reason of the great crowd at the Gem, that Mr. Tritch determined to have it returned as soon as possible, and Thursday is the first day it has been possible to have it

For tonight the Gem gives four pictures, the feature of which is a human heart story of the social whirl in which a mother and father get so interested in society as to neglect their children and the little ones get heart hungry and sick for the love of parents

Mutt and Jeff Again.

At the Lamar Airdome the always fvorites, Mutt and Jeff, are he feature pictures, and this alone insures a big crowd. There is also the Two Hoeys, who made a decided hit in straight and blackface comedy last night, The Hoeys are real entertainers with comedy that is new and music that has merit, Mrs Hoey's song last night "Why Don't You Be a Man Lake Your Dad?" was one of the best hits of the summer season

LAYING GAS MAINS IN RESIDENCE SECTION

W. C. Gibson, local manager for the Wichita Falls Gas Company, stated today that his company would be ready to supply gas from their wells in the Petrolia field within two weeks and possibly would be ready with the service within ten days. He stated that the main from the field to this city had been completed and that next week a station would be constricted adjoining the city on the east for the purpose of reducing the pressure of the gas before it reached the city

The company now has a large crew of men laying pipe within the city and this work is being pushed as fast as possible in order to inaugurate the service at the earliest possible date.

PROCEEDINGS IN THE COUNTY COURT

Several cases were disposed of in the county court today. This afternoon the State vs Gehrug, charged with aggrevated assault is on trial before a jury. The following orders were entered on the docket:

State vs. Pat Keys, bond forfeited.

State vs. Clyde Dorsey, bond forfeited

State vs. Ollie Claibourne, retired from docket.

State vs. W. L. Kemper, gaming; bond forfeited.

State vs M. A. Marcus, gaming; indictment quashed.

State vs. C. Scholfield theft, plea of guilty, one day in jail, $5 fine.

State vs. Red Smith, bond forfeited.

State vs. M. E. Roark, swindling; plea of guilty; one day in jail, $5 fine.

For nice, sweet, clean, fresh meats go to the Wichita Meat Market, 906 Indiana Avenue. 68-26tc

Other Proceedings of Council.

At an adjourned regular meeting of the city council held this morning several matters of importance were considered including the passage of the bicycle ordinance mentioned elsewhere in this issue, and the discussion of the matter of regulating public service corporations.

Fire Chief Stampfil was allowed $2 for each fire attended, as provided for other members of the fire department in an action taken several weeks ago. He was also authorized to purchase eleven feet of hose for use in connecting the engine with fire plugs, the hose being in the nature of an improvement on the one now in use.

Mr Duncan, who has been running the street sprinkler for some time appeared before the council with a proposition to sell his wagon to the city for use in sprinkling in connection with the street sweeping. The matter was referred to the street committee.

The Chief of Police was instructed to begin at once the enforcement of the speed ordinance against automobile owners and to arrest the driver of any machine that exceeded the limit within the city limits

Some discussion was had with reference to a better enforcement of the dog tax ordinance, but no action was taken by the council.

$40 REWARD FOR MAN WHO SOLD MULE

Sheriff Randolph is offering $40 reward for the arrest and detection of the man charged with selling a stolen mule to the Wichita Horse and Mule Company, here about a week ago.

The man is described as being 65 years of age, slightly stoop shouldered; gray stubby moustache; black mole under one eye and poses as a land buyer from Kentucky.

Bronson and Deshler Again.

Indianapolis, Ind., Aug. 22—Ray Bronson of Indianapolis and Dave Deshler, the Boston boxer, have finished training for their ten round contest to take place in this city tomorrow night Both appear to be in excellent condition for the bout. It will be the third time the two fighters have met in the ring. In 1909 they engaged in two twelve round contests in Boston. Both were declared draws. The two are regarded as very evenly matched and as a consequence they are counted upon to put up an interesting fight.

Bar Harbor's Annual Horse Show.

Bar Harbor, Me., Aug. 22—The golf links, the tennis courts and the yachts were deserted today for the field at Robin Hood Park, where the annual Bar Harbor Horse Show was opened under most promising conditions. In the quality and number of exhibits the show this year is the equal of many metropolitan exhibitions The judging and awarding of the prizes was begun this afternoon and will continue until the close of the show next Thursday

P. H. Callahan, who has been working as a newspaper reporter here for several months will leave tonight for Woodward, Okla., to join a Northwestern surveying party.
